

Name: **Lam Hoang Anh Harry**

Identification N°: **6972876812**

Date of Birth: **20 Apr 2005**

Test Date: **09 Jun 2026**

Valid Until: **09 Jun 2028**

Client/Institution: **UPEC - IUT de CRETEIL VITRY - dpt Réseaux Télécommunications France, Metropolitan**

Listening

CEFR Level: **B2**

Reading

CEFR Level: **B1**

Total

CEFR Level: **B1***

CEFR: Common European Framework of Reference

Typical strengths for your **Listening** score

Your scaled score is between 400 and 495. Test takers who score around 400 typically have the following strengths:

- They can infer the central idea, purpose, and basic context of short spoken exchanges across a broad range of vocabulary, even when conversational responses are indirect or not easy to predict.
- They can infer the central idea, purpose, and basic context of extended spoken texts across a broad range of vocabulary. They can do this even when the information is not supported by repetition or paraphrase and when it is necessary to connect information across the text.
- They can understand details in short spoken exchanges, even when negative constructions are present, when the language is syntactically complex, or when difficult vocabulary is used.
- They can understand details in extended spoken texts, even when it is necessary to connect information across the text and when this information is not supported by repetition. They can understand details when the information is paraphrased or when negative constructions are present.

To see weaknesses typical of test takers who score around 400, see the Proficiency Description Table.

Typical strengths for your **Reading** score

Your scaled score is between 250 and 350. Test takers who score around 250 typically have the following strengths:

- They can make simple inferences based on a limited amount of text.
- They can locate the correct answer to a factual question when the language of the text matches the information that is required. They can sometimes answer a factual question when the answer is a simple paraphrase of the information in the text.
- They can sometimes connect information within one or two sentences.
- They can understand easy vocabulary, and they can sometimes understand medium-level vocabulary.
- They can understand common, rule-based grammatical structures. They can make correct grammatical choices, even when other features of language, such as difficult vocabulary or the need to connect information, are present.

To see weaknesses typical of test takers who score around 250, see the Proficiency Description Table.

If your performance is closer to 350, you should also review the descriptors for test takers who score around 350.

*The range of total scores associated with each CEFR level is estimated by adding the relevant cut scores from the Listening and Reading test section CEFR mappings. Whenever possible, ETS encourages score users to consider CEFR levels separately for Listening and Reading rather than using a single overall estimate based on the total score. This approach is more precise and considers a test taker's language profile, which may differ between listening and reading comprehension.

Note: TOEIC scores more than two years old cannot be reported or validated.

This score report is intended for use in the country of Client/Institution.
