

Harry LAM

8 rue Charles de Gaulle 91330, Yerres • +33 6 47 30 51 55 • harrylam317@gmail.com • LinkedIn : [Hoang Anh Harry LAM](#) • Github : [LAM-Harry](#)

Incoming M.Sc. (Master of Science) student at ESILV | Specializing in Computer Science & Data Science

PROFESSIONAL EXPERIENCE

AIFE (French Agency for Government Financial Information Systems) - Ministry of Action and Public Accounts Noisy-le-Grand, France
Full Stack Development Internship March 2026 – June 2026

- Development and industrialization of an Angular/TypeScript component library for the French government, compliant with RGAA (French General Reference for Accessibility Improvement).
- Implementation of a Figma plugin for token design export and management.
- Contribution to the Full Stack development of the ASTRA project (Automated Regulatory Texts Assistant).
- Realization of POCs (Proofs of Concept) on public procurement websites to validate component adaptability across various application contexts.

KAIST (Korea Advanced Institute of Science & Technology) – EXO-lab Research Laboratory Daejeon, South Korea
Data Scientist Internship - R&D - Deep Learning April 2025 – June 2025

- Design of a PyQt5 graphical interface for real-time visualization of physiological data (pMMG, EMG, IMU) for exoskeleton control.
- Development of a deep learning pipeline with TensorFlow/Keras for classification and regression: RNN, GRU, LSTM, Transformer.
- Implementation of a logging system and hyperparameter optimization to enhance model performance.
- Evaluation of deep learning model performance (accuracy, loss, confusion matrix).

ACADEMIC PROJECTS

Medical No-Code Platform
DevOps Project September 2025 - June 2026

- Design and development of a no-code web platform using React (TypeScript) and Java (Spring Boot) for creating medical workflows with dynamic forms.
- Implementation of a MySQL database and secure data exchange with Firebase Authentication.
- Containerization of the application using Docker and deployment with Nginx.
- Management of CI/CD pipeline with Gradle and npm for frontend and backend deployment.

Interactive Weather Application
Application Development Project September 2024 - April 2025

- Development of a PHP/JavaScript web application using the SYNOP API for climate condition analysis.
- Management of weather station data via MySQL and phpMyAdmin.
- Display of weather data (temperature, pressure, precipitation) for major French stations.
- Processing and caching of API data to optimize performance.

EDUCATION

MASTER OF SCIENCE - ESILV (ÉCOLE SUPÉRIEURE D'INGÉNIEURS LÉONARD-DE-VINCI) Nanterre, France
Computer Science & Data Science 2026 - 2028

BACHELOR OF COMPUTER SCIENCE - UNIVERSITY OF PARIS-EST CRÉTEIL Vitry-sur-Seine, France
Application Development Specialization : Design, Development, Validation 2023 - 2026

FRENCH BACCALAUREATE - FRENCH INTERNATIONAL HIGH SCHOOL OF MARGUERITE DURAS Ho Chi Minh, Vietnam
Specializations: Mathematics, Computer Science - With Honours 2023

PROGRAMMING SKILLS

- **Programming Languages** : Java, Python, C/C# languages, JavaScript/TypeScript, PHP, HTML, CSS/SCSS
- **Web Development & Frameworks** : React, Angular, Node.js/Express.js, Spring Boot, Flask, PyQt5, Tkinter
- **Database Languages** : PL/SQL, MySQL, PostgreSQL, MongoDB, Redis, Neo4j, Qdrant
- **AI & Deep Learning** : TensorFlow, Keras
- **DevOps & CI/CD Tools** : Docker, GitHub Actions
- **Operating Systems & Networking** : Linux, Windows, Apache2, SSH, FTP / SFTP

SOFTWARE SKILLS

- **IDE and Code Editors** : Visual Studio Code, Visual Studio 2022, CodeBlocks, Eclipse
- **Database Software** : DBeaver, Oracle, phpMyAdmin, Firebase
- **Virtual Machines, Containers & Cloud** : VirtualBox, Docker Desktop, AWS
- **Project Management & Version Control** : Git, GitHub, GitLab

LANGUAGES

- **French / Vietnamese** : Native languages
- **English** : Professional level - **TOEIC Listening & Reading** (Score : 750/990)
- **Spanish** : A2+ level (Elementary)

SOFT SKILLS

Creativity - Communication - Determination - Problem solving - Team Spirit - Organization (Agile methodologies: Scrum and Kanban)
